

OWNER REPRESENTATION

SCOPE OF SERVICES

THE OWNER REP ROLE

The Stonehouse Company serves as your **fiduciary advocate** throughout the full pre-construction and construction lifecycle of your custom home. All communication with the builder, architect, designer, and tradespeople funnels through Stonehouse — so your interests are protected at every step and decisions are made with full information.

TIMELINE

Typical engagement runs **16–18 months** from lot identification through certificate of occupancy. Pre-construction work (site selection, design coordination, builder bidding, contracts) is included in the engagement — there is no separate pre-con fee.

FEE STRUCTURE

5%

of hard construction costs

Paid evenly across construction, from demolition through C.O.

WHAT'S INCLUDED IN THE FEE · HARD COSTS

- Materials (lumber, concrete, fixtures, appliances)
- Labor — all on-site trades and crew
- Site preparation, grading, and excavation
- Landscaping & hardscape (materials + labor)

EXCLUDED FROM THE FEE · SOFT COSTS

- Architect fees
- Interior designer fees
- Builder's own fee
- Construction-loan interest and financing costs
- Annual property taxes
- Title and closing costs

INDEPENDENT FROM LAND ACQUISITION

The owner-rep engagement is separate from any Land Acquisition agreement. If Stonehouse also sourced your lot, that deal is governed by its own MRC-based commission — the two fees are never combined.
